25X1 [redacted]
 25X1 [redacted] in the
 25X1 Pzemysl and Lubaczow areas (southeast Poland) the Polish Army under the super-
 vision of Russian officers is forcefully evacuating people from their homes and
 25X1 placing them in barbed-wire enclosed camps. Pregnant women, sick children are
 all being included in this group. Many of them have to sleep on the ground in
 all kinds of weather. Ostensibly, they are being evacuated because the Ukrainian
 25X1 underground forces are on a rampage, and, according to our information, will be
 resettled probably in former Prussia. There is probably much more behind this
 whole activity. [redacted] they will be used to settle former German
 25X1 territory which [redacted] sparsely settled, the land lying
 25X1 fallow and unused. Could it be that they foresee an International Commission
 25X1 inspecting these areas? How tragic this is you can gather from the letter [redacted]
 [redacted] who asks, not for clothing or food for these people, but just
 "For your prayers".
